

To help you identify your P38 Range Rovers Engine Management System type, below are pictures showing the 3 different engines.

GEMS Petrol Engine Management System, identified by the Cubic Capacity (4.0 or 4.6) on the flat top.

Bosch Motronic Petrol Engine Management System, Identified by it's collection of Banana shaped manifold tubes.

EDC Diesel Engine Management System, Easily identified by the intake tube with the words "TURBO INTERCOOLED" embossed on it.
